

You must follow these steps in this order:

1—cut along exterior dotted lines (shown by bold black lines) 2—fold over narrow tab alongside “My Seeds” (shown in blue) so “glue this side” is up. 3—fold in half on center line between “Notes” and “My Seeds” (shown in red). 4—run glue stick along narrow side tab and press “Notes” flap down to seal. 5—fold up bottom tab (shown in green) and glue closed— **you may want to fold first to form a good even crease before running glue stick across the “inside.”** 6—fold over top flap to form crease. 7—fill packet with seeds and glue top flap closed when ready to store!

Optional: Using your scissors, round off top corners of this flap and bottom flap, too!
